G SNEHA

SOFTWARE ENGINEER | BACKEND • MICROSERVICES • AI/ML
8374317373 | gopishettysneha2212@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Engineer experienced in backend application development, REST API integrations, microservices, and e-commerce platform modernization. Skilled in C#/.NET, Java, Python, SQL, CI/CD, Azure fundamentals, and AI-assisted development tools. Experienced in migrating commerce features, supporting releases, troubleshooting production workflows, and sharing technical knowledge. Also builds AI/ML and legacy-code understanding solutions.

TECHNICAL SKILLS

Programming	C#, Java, Python, JavaScript, SQL, C++, C, Linux Programming
Backend & Architecture	.NET, REST APIs, API Integration, Microservices Architecture
Databases & Search	PostgreSQL, Oracle Database, SQL, NoSQL, Vector Databases, FAISS
AI / ML	LangChain, HuggingFace, Retrieval-Augmented Generation (RAG), NLP, Prompt Engineering
AI-Assisted Tools	ChatGPT, Claude, GitHub Copilot, Google Gemini
Web Development	MERN Stack, Flask, Streamlit
Engineering Practices	Kafka, CI/CD, Unit/Integration Testing, Code Reviews, Debugging, Production Support, Git
Product & Platforms	Product/Requirements Analysis, Agile/Scrum, VTEX, Data Structures & Algorithms, OS, Computer Networks

PROFESSIONAL EXPERIENCE

Associate Software Engineer | GlobalLogic
Oct 2025 – Present • Hyderabad, India

- Migrated 15–20 commerce features from OMNI to VTEX, adapting business logic and redesigning API integration flows for platform modernization.
- Developed .NET 8 REST APIs and microservices for Dollar General e-commerce, supporting cart management, subscription/order processing, and related workflows.
- Implemented Kafka consumers for DoorDash fulfillment and cancellation events, updating order tracking in MongoDB and invoking VTEX order APIs.
- Configured HTTP resilience with Polly and Microsoft.Extensions.Http.Resilience, including retry and circuit-breaker policies for transient failures.
- Contributed to NUnit/xUnit and Moq tests; supported R1–R3 releases, production troubleshooting, and knowledge transfer for new joiners.
- Applied Clean Architecture and dependency injection; integrated VTEX APIs with MongoDB, PostgreSQL, Oracle, and Redis.

Trainee Software Engineer | GlobalLogic
Apr 2025 – Oct 2025 • Bangalore, India

- Built AI-powered applications with Python, LangChain, HuggingFace, FAISS, and Streamlit for practical LLM/NLP use cases.
- Designed RAG pipelines using vector embeddings and semantic search; developed chatbot workflows using prompt engineering and response refinement.
- Gained hands-on experience in AI application development, experimentation, and integrating language models with retrieval components.

PROJECTS

Legacy Whisperer | Legacy Code Intelligence / Codebase Analysis
Designed a concept to map code behavior, dependencies, and change impact, helping engineers understand unfamiliar codebases and accelerate modernization discovery.

Multimodal Document Intelligence System | Python, LangChain, HuggingFace, FAISS, Streamlit
Built an LLM-based workflow for summarization, named entity recognition, keyword extraction, multilingual processing, semantic retrieval, and structured PDF exports.

AI-Powered Mental Health Chatbot | Python, Flask, NLP, LLMs
Developed a supportive conversational chatbot and refined prompts to improve response relevance and conversational quality.

Voice Activity Detection of Speech Signals | Python, Signal Processing
Used zero-crossing rate and short-term energy to distinguish speech from silence and background noise.

Vehicle Breakdown Assistance Web Application | MERN Stack, Geolocation APIs
Built a platform connecting users to nearby repair providers through geolocation matching within a 15 km radius.

EDUCATION

B.Tech in Information Technology | CGPA: 9.42 | CVR College of Engineering | 2021–2025

ACHIEVEMENTS & CERTIFICATIONS

- Finalist – Smart India Hackathon 2023 (Ministry of Education, Government of India)
- Finalist – Ideathon 2024 – Narayanamma Institute of Technology and Sciences
- VTEX 101, VTEX APIs & Integrations, VTEX IO, and VTEX DevOps Certifications
- Microsoft Certified: Azure Fundamentals; Salesforce Developer Virtual Certification

ADDITIONAL ACTIVITIES

A1 Certification in German – Goethe Zentrum Hyderabad • Participated in multiple MUNs • Trained Kuchipudi classical dancer • ‘A’ Certificate in NCC
